Connecting to the eduSTAR Wireless
Prepared by Shane Webster
Step by Step guide on how to connect your OSX (Macintosh) device to the Berwick SC wireless network
1. Click on the Wi-Fi button on the top right of your screen.

2. Select the eduSTAR wireless network from the list.
3. You will be prompted to enter your username and password. Enter your username as BSC\<Username> for example BSC\JON0022

4. Once you have connected click on the Wi-Fi icon again and select Open network preferences.
5. Click on advanced and then select Proxies.
6. Select Web Proxy (HTTP) and enter the details below.

7. Ensure you enter the same details for the Secure Web Proxy (HTTPS) and ensure the tick box is checked. Once completed click OK and APPLY.
