Connecting to the eduSTAR Wireless
Prepared by BSC IT Department
Step by Step guide on how to connect your Windows 8 device to the Berwick SC Wireless Network

Version 1.1
1. Click on the Network Connections icon in the bottom right hand corner of the screen.

2. Select the eduSTAR wireless network from the list.

3. You will be prompted to enter your username and password. Enter your username as bsc\username for example bsc\student and select the “OK” button.
4. Select “Connect” to continue.

5. The connection will verify and then connect. Proceed to next step.

6. Enter your BSC login details again for Proxy authentication.
7. You should now be connected.
