Connecting to a VMware View Desktop
Prepared by Berwick College - IT Department
Step by Step guide on how to launch a VMware View Desktop from your iPad.

Version 1.1
Create a VMware View Server Connection and Launch a View Desktop

1. Locate the "VMware View" icon on your home screen and Tap on the icon.
2. Tap on the “Add Server” button.
3. Type "view.berwickcollege.vic.edu.au" in the hostname field and tap connect.
4. Enter your Berwick College username and password and tap on the “Done” option.
5. Tap on the "Windows 7" connection.

Logout

Windows 7
6. A VMware View Desktop will now launch. Note that the VMware View settings icon (highlighted in the red box) can be dragged to anywhere on the screen. You can rotate your iPad horizontally for ease of use. Refer to the before and after screenshots below.
